

My Kisses Need A Cavalier

Baccara

Since I've looked at you
I know we could do
Things I've never done with nobody baby
Dreaming maybe
Since you've looked at me
I know you could see
We are made for each other baby
Why should I pray too high?

My kisses need a cavalier
Kisses need an atmosphere
A certain light and dancing tight
To make the ride
That's why I say
My kisses need a cavalier
Kisses need an atmosphere
If I were you
Oh boy I knew
What I would do

Let's go buy a car
Fly high to a star
If we travel on to the rainbow honey
Somewhere sunny
We can climb a cloud
Laugh, sing, shout it loud
That we, you and me are in love now baby
And then maybe for good

My kisses need a cavalier
Kisses need an atmosphere
A certain light and dancing tight
To make the ride
That's why I say
My kisses need a cavalier
Kisses need an atmosphere
If I were you
Oh boy I knew
What I would do

We can climb a cloud
Laugh, sing, shout it loud
That we, you and me are in love now baby
And then maybe for good

My kisses need a cavalier...
