

My World

Bachelor Girl

I know the kind of love you're searching for
You're looking for a love that lasts forever
But holding me tonight you can't be sure
I might be the answer you need
We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
Cause I
I want to get you in My World
Lonely time when you've been cold and wishing
You're living with a wal around your heart
But you may never find the love you're missing
Baby, baby, baby take your chance on me
We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
Cause I
I want to get you in My World
All the time you're wasint holding back from me
So much love here waiting can't you see
We could be so good
If you'd just come into my life
We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
Cause I
I want to get you in My World
How can I get you into My World
How can I get you into me
How can i get you into My World
(If there's a chance I'm gonna find a way)
How can I get you into My World
Why can't you find your way to me
(I'm gonna keep on, keep on asking you)
How can I get you into My World
(Baby, baby, how can I get you)
We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
Cause I
I want to get you in My World
