

# A Long Time for a Little While

**Bachman-Turner Overdrive**

It's been a Long time, for a little while  
I think I'm in over My head...  
Deep Thought, that's what I've been through  
I don't think I'll be here again...

It's a one-way street, and I can't refuse  
Nothing left, to lose...  
I'll just disappear, into atmosphere  
You can read it in the news!

The only thing that I know for sure  
is we're all gonna die...  
Just be glad you had the chance  
and so have I...

To live a Long time, for a little while  
A moment, that's all it lasts...  
The future Ends, where the past begins  
it's just a lifetime beginning to end

The only thing that I know for sure  
is we're all gonna die...  
Just be glad you had the chance  
and so have I...
