

# Rock is My Life, and This is My Song

Bachman-Turner Overdrive

It's a hurried up life  
But it's the life I choose  
No use in asking me to slow down  
Cause I got nothing to lose

But time and time is all I've got  
You know I born standing up with a guitar in my hand  
I'm not trying to come on like hollywood  
But hollywood is what I am

When we come into a new town  
Everybody's there  
When we play our music  
Hands are in the air

When the music's over  
You wonder where we are  
I'm standing in the silence  
With my old guitar

Rock is my life and this is my song  
It's a crying shame  
That some of us have not survived  
No use in asking how it happened  
But very few are left alive

I just wanna keep on makin' music  
We gotta keep on keepin' on  
You're only as good as your last record  
I know that someday we'll be gone, gone

When we come into a new town  
Everybody's there  
When we play our music  
Hands are in the air

When the music's over  
You wonder where we are  
I'm standing in the silence  
With my old guitar

Rock is my life and this is my song  
When we come into a new town  
Everybody's there  
When we play our music  
Candles light the air

When the music's over, over  
You wonder where we are  
I'm standing in the silence  
With my old guitar, my only friend  
Rock is my life and this is my song
