

Until Forever Ends

Backseat Goodbye

It's so hard to see the stars through the city lights sometimes
.

I wonder if you're thinking of me, 'cause I'm sure as hell thinkin' of you.

And I'll wait until forever ends to share just one breath with you.

And I'll wait until forever ends to share just one breath with you,

With you, with you.

I've layed awake so many nights waiting for you,

Like that winter snow, the warmest day, you never showed.

And I'll wait until forever ends to share just one breath with you, with you.

You are so invincible. won't you stay for the night, for the night?
