This goes out to all the children All over the world
This one's for the children
Children of the world
Come a little closer now
So you can see the children's eyes
There's no use in trying
When you're dealing with the dying

So let me have a talk with you And hope that you believe it too There's so many ways to help Laughter you can bring

Come closer now

See the children's eyes

See the children's eyes

You just have to give them a helping hand

With a little bit of love

And a little bit of time

You can help the children of the world

Just a little bit of love

And a little bit of hope

There're a lot of things to do

To help the children of the world

R'n'G is about to take control

The only thing you got to do is set yourself free

We got to help each other that's how it has to be

2-4 Fam. Here to lend a helping hand Come a little closer now See it in their eyes We've got to keep on trying To stop the children crying

Come closer now
See the children's eyes
See the children's eyes
You just have to give them a helping hand
Chorus
We just have to understand
They all need a helping hand
With a little bit of love
A little bit of love
Lots of things to do
Hope you know it, too
We just want to give them a little hope

Help the children of the world
