

# Make Believe

Backstreet Boys

We can only make believe  
Whoa, whoa, whoa, whoa  
We can only make believe  
Whoa, whoa, whoa, whoa

Something that you said got into my head  
Here I am falling from the edge  
Waiting for the day I can run away with you, with you

Like angels on fire we burn the sky  
One kiss and we'd say goodbye

If we can only make believe (Oh)  
You and me, together (Oh, oh)  
We can be a King and Queen (Oh)  
Rule another world forever (Oh, oh)  
We set our course to live or die  
Across the universe I'd be by your side  
If we could only make believe

We can only make believe  
Whoa, whoa, whoa, whoa  
We can only make believe  
Whoa, whoa, whoa, whoa

Catch another breath I got nothing left  
This love I have is pulling me to death  
Waiting for the night I can feel alive in you, in you

Like angels on fire we burn the sky  
One kiss and we'd say goodbye

If we can only make believe (Oh)  
You and me, together (Oh, oh)  
We can be a King and Queen (Oh)  
Rule another world forever (Oh, oh)  
We set our course to live or die  
Across the universe I'd be by your side  
If we could only make believe

If we close our eyes  
Let our hearts collide  
Leave the world outside  
Leave it all behind  
If we close our eyes  
Let our hearts collide  
Leave the world outside  
Leave it all behind

Leave the world outside  
Leave it all behind...

If we can only make believe (Oh)  
You and me, together (Oh, oh)  
We can be a King and Queen (Oh)  
Rule another world forever (Oh, oh)  
We set our course to live or die

Across the universe I'd be by your side  
If we could only make believe

If we close our eyes  
Let our hearts collide  
Leave the world outside  
Leave it all behind  
If we close our eyes  
Let our hearts collide  
Leave the world outside  
Leave it all behind
