

# My Heart Stays With You

Backstreet Boys

You know, sometimes being on the road is rough  
Especially loneliness...

Girl I miss you  
And it's only been one day  
Since I went away  
And already I say  
I long to kiss you  
And hold you in my arms  
The nights are much too long when you're gone  
Baby, that's why

Wherever I go  
Girl, my heart stays with you  
After every show  
I wanna rush over to you  
My heart stays with you

Trust me, when we are apart  
I won't break your heart  
Wherever you are  
I know you feel me  
Baby, 'cause I can feel you too  
No matter what you do  
I think of you

Girl, my heart stays with you  
After every show  
I wanna rush over to you  
Baby, yeah

When I'm leaving town  
Girl it hurts me too  
But I've got a job to do  
I'll be back around  
To feel your sweet face  
Your dear embrace  
No one can take your place
