Backstreet Boys

I'm the type of person to get carried away
Been this way since I came out of the womb
I been obsessive, got that off of me
Yeah, and God knows I do not like to lose

And I want your love, I want your love
I'ma do whatever it takes
And I want your love, I want your love
I know I come on hard, there's no need to be alarmed
It's just I'm

Passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all
I'm passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all

I never listen to the voice in my head
You know, it's like I got no brakes in my car (I never listen to it)
I'm on a mission, gonna sleep with 'em And it's impossible to stop when I start

And I want your love, I want your love
I'ma do whatever it takes
And I want your love, I want your love
I know I come on hard, there's no need to be alarmed
It's just I'm

Passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all
I'm passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all

Oh, I'm so passionate

All I want is everything
Too much adrenaline
And all I do is anything
But like a gentleman
Singin', all I want is everything
Too much adrenaline
And all I do is anything
But like a gentleman

Passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all
I'm passionate
I can't help but I need to get my hands on all of it
Need to get my hands on all of it all, a-all

Yeah
No, no
I know, know, I'm so passionate, oh

To the beat now, to the beat now

Passionate

I can't help but I need to get my hands on all of it

(La la la la la la la)

Need to get my hands on all of it all, a-all

(I'm so passionate, yeah)

I'm passionate

I can't help but I need to get my hands on all of it

(Come on, yeah, yeah)

Need to get my hands on all of it all, a-all

(I'm so passionate)
