

# Shining Star

Backstreet Boys

You're my shining star,  
That is what you are  
There is no one like you baby  
Angels everywhere  
Everytime you're near  
You will always be my baby

Baby when you do the things you do  
I wanna be close to you  
Kissing me to feel your every move  
Baby I can never say how much  
( I ) I need your touch  
( I ) I can't get enough  
Can't you know what you do turn me on oh yeah

You're my shining star,  
That is what you are  
There is no one like you baby  
Angels everywhere  
Everytime you're near  
You will always be my baby

Oh my my baby  
Baby you're as close as close can get  
And baby you know I let every single  
Part of me be yours ooh yeah  
Doesn't matter if the phone might ring  
( I ) Cause I won't hear a thing  
( I ) When I'm in your arms  
Can't you know what to do to turn me on oh baby

You're my shining star,  
That is what you are  
There is no one like you baby,  
Baby no  
Angels everywhere  
Everytime you're near  
You will always be my baby  
Oh my my baby

With anything in my entire life
