Heaven 2.9

Backyard Babies

Someone put me on a plane Goodbye, farewell, adios my friends I need a holiday S.a.s. is takin' off again

I want to have my fun Where the nights are long We want to go away Where the sun will always shine We're in heaven 2.9

Or just put me on a train Goodbye, farewell, adios my friends Tell her I said 'Hey' And I might not come home again

I want to have my fun Where the nights are long We want to go away Where the sun will always shine We're in heaven 2.9

A London queen Tokyo teen A Frisco fag in the disco scene A New York doll And the Berlin boys

Can I ride in your car Goodbye, farewell, adios my friends Vacations at the jet set sunset bay My girls are drivin' me insane

I want to have my fun Where the nights are long We want to go away Where the sun will always shine We're in heaven 2.9
