

# Minus Celsius

Backyard Babies

I searched the world around for you  
In every corner I see two  
Ovations ought to be for me  
What makes anybody wannabe

I'm sure you're lookin'  
Sure got your hooks in  
It's freezing, I'm so cold  
(You're damn right!)

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

I care about. Now what's his name?  
Moral speakin' nor did I choose fame  
What in the world took you so long?  
The time is dripping, all fluids getting strong

I'm sure you're lookin'  
Sure got your hooks in  
It's freezing, I'm so cold  
(You're damn right!)

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

Minus me, minus you  
I think it's all because of  
I think it's all because of you!

I know it' all becouse...
