

We Go a Long Way Back

Backyard Babies

Everybody wanna see the fat old lady sing now
Everybody knows that's when the war begins now
And everybody knows I gotta get the wolf in the ring now
It's about time we put our guns on the ground now
And it's about time we stop fucking around now
It's about time cause I can't hear no sound now

So put your hands on the information man
Put your reckless life down in a sack
Prepare yourself for isolation man
We go a long way back

Look at your face you really need to unwind now
Look at the racks we always leave behind now
C'mon look at the shit that made us all go blind now

So put your hands on the information man
Put your reckless life down in a sack
Prepare yourself for isolation man
We go a long way back

So put your hands on the information man
We go a long way back

So put your hands on the information man
Put your reckless life down in a sack
Prepare yourself for isolation man
We go a long way back

So put your hands on the information man
Put your reckless life down in a sack
Prepare yourself for isolation man
We go a long way back
