Word on tha streets, see it ain't nobodies business  
Secret to keep, so keep heat, in case things get deep  
Peace box is where it starts, scarred flesh and broke hearts  
Since a kid, this is how we live

Ain't nuttin' to look forward to schools full of devils  
The church don't work 'cuz all the lies  
That they tell us, ya'll it'll be hell before we get there  
Survivin' guns and drugs and see

If you can deal with this germ warfare that's endin' us  
They AntiChrist, I'm antifair, antivice  
Antinice, antispice, up your life, I'll make you love it  
'Cuz it's real and you bump it 'cuz it's tight

Yeah, people make the world go 'round  
And it's a gang of us all gathered up in our game colors  
Man, these my gang brothas, what, you ain't heard of us  
You ain't never ever heard the word, murderer's

We make the news what it is, you ask what is this  
We the reason why the police in business  
So run up on us with your knife and your pistols  
We'll plague your character with rifles and missils

I dropped my pack and drove my back to the East Side  
Smash in this coupe with my passenger Snoop
