

Anyway Forever

Bad Boys Blue

Take my heart
Come beam it up
Never let this feeling stop
Drop your love on me
Girl i love you
Can't you see?
You're in my head
You're in my mind
A love like her is hard to find
Girl, you're my shining star
Sweet, that's what you are
Help me make it through the night
Be my lover
Be my life
Stay with me
And feel the heat
Girl, you're all i need
Fear no fighting
Fear no force
Never let us get divorced
Ooh, i feel so fine
Yeah
Gonna make you mine

Gonna make you mine
Do it right in time
Let me take you anyway forever
Gonna make you mine
Do it right in time
Anyway forever

I dream of you
Oh yes, it's true
Without your love i'm feeling blue
This is our night
Tonight's the night
Celebrating yours with candle lights
I can't be holding back for love
You must be sent from high above
And if you think that dissipates
No you break
I'm hungry for the words you say
Can't wait in vain for another day
Call anytime and i'll be there
I'll always love you
Yes, i swear
The rhythm of my heart beats fast
Forever
Our love will last
I'm feeling fine
Yeah
Gonna make you mine

Gonna make you mine
Do it right in time
Let me take you anyway forever
Gonna make you mine

Do it right in time
Anyway forever.
