

# Go Go (Love Overload)

Bad Boys Blue

Go! Go! Go!  
But she said No! No! No!

Looking for some cover.  
You might find a lover.  
That's alright with me.  
Now you got a notion.  
Filled up with emotions.  
Go and set them free.  
Come on it's easy (Come on, come on, come on).  
Come on it's easy (Come on, come on, come on).

And I said go go go for your love and you slip into dreaming.  
And you said no no no when I dream. I can't go for the real thing.  
But when I'm touching you all over.  
I get a signal from your love... love overload.

Closer but not touching.  
I will tell you one thing.  
Life is not for free.  
If you wanna live it.  
Step right out and give it.  
A chance to make you see.  
Come on it's easy (Come on, come on, come on).  
Come on it's easy (Come on, come on, come on).

And I said go go go for your love and you slip into dreaming.  
And you said no no no when I dream. I can't go for the real thing.  
But when I'm touching you all over.  
I get a signal from your love... love overload.

Now you better stay. It will be ok.  
I will hold you when you're falling.

And I said go go go for your love and you slip into dreaming.  
And you said no no no when I dream. I can't go for the real thing.  
But when I'm touching you all over.  
I get a signal from your love... love overload.
