

# Heaven Must Be Missing You

Bad Boys Blue

In the name of love  
In the name of love

I have tasted love and pain  
I win then lose again  
It's just a neverending game  
Now my heart is safe with you  
And everything I do I'm gonna do it for you  
Feels like paradise when you're here with me  
Angel in disguise  
You're my fantasy

Heaven must be missing you  
You're an angel this is true  
Sent from high above in the name of love  
Heaven sent you down to me  
Just to ease my misery  
From the skies above in the name of love

Her love felt like a desert sand  
Just running through my hands  
Before you came into my life  
Now, the shadows gone away  
Because you're here to stay  
To make my night shine bright  
Feels like paradise when you're here with me  
Angel in disguise  
You're my fantasy

Heaven must be missing you  
You're an angel this is true  
Sent from high above in the name of love  
Heaven sent you down to me  
Just to ease my misery  
From the skies above in the name of love
