

I Can't Live

Bad Boys Blue

Neverending - what a feeling that we shared.
Since you came into my world. You're like another part of me now.

Neverending - burning fever deep inside.
What a magic when I hold you baby.
When you're lying by my side.

No I can't live, live without your love.
Cause i need you just here by my side.
I can't live, when we're not together.
If you ever should leave me I'll die - that is true.

Everlasting - I'll never find another you.
I'll never ever make you blue.
And keep you warm for all the times.
Everlasting - gonna give you more and more.
All the things you've been longing.
Or when you're by my side.

No I can't live, live without your love.
Cause i need you just here by my side.
I can't live, when we're not together.
If you ever should leave me I'll die - that is true.
