

# I'm Never Gonna Fall In Love Again

Bad Boys Blue

I have wasted too much time  
Feeling sorry just for myself  
But suddenly I realize  
I don't need nobody else  
I just walk out through the door  
You won't see me anymore  
I'm never gonna fall in love again  
I don't want no love no more  
I'm never gonna fall in love again  
For I've been hurt so much before  
Love can shake you, break you  
Love can bring you down  
I was sorry to see you go  
But baby true love can be tough  
Agony and ecstasy  
Joy and pain I've had enough  
I can make it all alone  
Face my life, just on my own  
I'm never gonna fall in love again  
I don't want no love no more  
I'm never gonna fall in love again  
For I've been hurt so much before  
Love can shake you, break you  
Love can bring you down  
I just walk out through the door  
You won't see me anymore  
I'm never gonna fall in love again  
I don't want no love no more  
I'm never gonna fall in love again  
For I've been hurt so much before  
Love can shake you, break you  
Love can bring you down  
I'm never gonna fall in love again  
I don't want no love no more  
I'm never gonna fall in love again  
For I've been hurt so much before  
Love can shake you, break you  
Love can bring you down...
