I'm Never Gonna Fall In Love Again

Bad Boys Blue

I have wasted too much time Feeling sorry just for myself But suddenly I realize I don't need nobody else I just walk out through the door You won't see me anymore I'm never gonna fall in love again I don't want no love no more I'm never gonna fall in love again For I've been hurt so much before Love can shake you, break you Love can bring you down I was sorry to see you go But baby true love can be tough Agony and ecstasy Joy and pain I've had enough I can make it all alone Face my life, just on my own I'm never gonna fall in love again I don't want no love no more I'm never gonna fall in love again For I've been hurt so much before Love can shake you, break you Love can bring you down I just walk out through the door You won't see me anymore I'm never gonna fall in love again I don't want no love no more I'm never gonna fall in love again For I've been hurt so much before Love can shake you, break you Love can bring you down I'm never gonna fall in love again I don't want no love no more I'm never gonna fall in love again For I've been hurt so much before Love can shake you, break you Love can bring you down...
