

# One More Kiss

Bad Boys Blue

You knock on my door asking for something  
I have never been asked for  
Should I say yes?  
Or should I say no?  
I want you to know

All the things that you say  
They make me wanna stay  
All the things that you do  
They make me fall in love with you

Just one more kiss  
And I believe that I'm in paradise  
Just one more touch  
I feel that an angel has passed me tonight

Water has turned into wine  
Come on and taste it  
Cause we're running out of time  
I'm ready to fly all through the night  
Let your love decide

All the things that you say  
They make me wanna stay  
All the things that you do  
They make me fall in love with you

Just one more kiss  
And I believe that I'm in paradise  
Just one more touch  
I feel that an angel has passed me tonight

Just one more  
Just one more kiss from you  
It's paradise  
Just one more  
Just one more touch  
And I feel that an angel has passed me tonight

Time  
Time's not waiting

All the things that you say  
They make me wanna stay  
All the things that you do  
They make me fall in love with you

Just one more kiss  
And I believe that I'm in paradise  
Just one more touch  
I feel that an angel has passed me tonight
