

Ride On A Star

Bad Boys Blue

Let us ride on a star.
Let us ride too far - be my lover.
Let us Ride, Oh!

Just for you and me the satellite came shining through.
Can you tell me what it means.
You dialed my number out of the blue. Who are you?
Give me just a little time. Just a little mystery.
Give me just a little gig. Show me what my dream can be.
I just have to know.

Let us ride on a star.
Let us ride too far - be my lover.
Let us ride, Oh!
Let us right Satellite. Let us fly so high.
Till it's over.
Take me in. Take my love. Take me higher tonight.
Take me up to the place. Straight into the light.

Steal my heart and kiss my soul.
Why don't you play with me?
Ah, yeah.
Come on send your message clear. Tell me how it's got to be.
Tell me now.
Give me just a little fate. Just a little fantasy.
Give me just a little hope. Show me where my dream can be.
I just have to know.

Let us ride on a star.
Let us ride too far - be my lover.
Let us ride, Oh!
Let us right Satellite. Let us fly so high.
Till it's over.
Take me in. Take my love. Take me higher tonight.
Take me up to the place. Straight into the light.
