

You Take Me To The Light

Bad Boys Blue

You take me to the light. You take me to the light.

When I met you in the sun. I fell in love with you.
But now it's dark. I'm on the run.
You broke my heart in two
Oh but I need you.
I need you all the time.
Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love.
When you are by my side. I know it's getting better.
Come take me to the light. And I believe in love.
When you are by my side.
Ohohoh.

Did you ever feel the same. Why don't you take my hand?
You left me standing in the rain. But I don't understand.
Oh but I need you.
I need you all the time.
Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love.
When you are by my side. I know it's getting better.
Come take me to the light. And I believe in love.
When you are by my side.
Ohohoh.
