You Take Me To The Light

Bad Boys Blue

You take me to the light. You take me to the light.

When I met you in the sun. I fell in love with you. But now it's dark. I'm on the run. You broke my heart in two Oh but I need you. I need you all the time. Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love. When you are by my side. I know it's getting better. Come take me to the light. And I believe in love. When you are by my side.

Ohohoh.

Did you ever feel the same. Why don't you take my hand? You left me standing in the rain. But I don't understand. Oh but I need you.
I need you all the time.
Oh, how I need you to be mine.

Ohohoh, you take me to the light. And I believe in love. When you are by my side. I know it's getting better. Come take me to the light. And I believe in love. When you are by my side. Ohohoh.
