Coming in Numbers

Bad Brains

It was a plot to take over.
To divide and conquer was the plan
But there was one thing that they overlooked.
The masses and multitudes across this land.

Woe unto Babylon. We're comin' in numbers

Fight for your rights living in Babylon
And don't believe when they tell you this world is just for you
.
Weak abandoned by your leader.
Now you stand alone.
Loser in a war waged against right.
Wasn't even a fight.

Woe unto Babylon. We're comin' in numbers

Fight for your rights living in Babylon
And don't believe when they tell you this world is just for you
.
It was a plot to take over.
To divide and conquer was the plan
But there was one thing they overlooked
The masses and multitudes across this land.
