

Freeze Out

Bad Cash Quartet

You know i met him in the church down the kings street
He said i've lost
I find no peace I'm fifty two
So I thought about the way that I am growing
Then we sang a song I never understood
Cause there's a freeze out
Bringing everyone down
To the ground from
Whera you never get up
Come oh summer come oh now
Stay all winter with me
Come oh summer come oh now
Stay all winter
You are dreaming nine to five no education
Across the street they study hard it's just the same
How does it feel tonight
When all the footsteps that you dream to leave only makes you a
fraid
There's a freeze out
Draining everyone's dreams
No one ever
Will get a second chance
Come oh summer come oh now
Stay all winter with me
Come oh summer come oh now
Stay all winter
