

# I Care About You All

Bad Cash Quartet

I go to the places where I been before  
I know you since you were four  
But we share so much more  
And I need you so  
Yeah I need you so  
I know all the answers before they are said  
I see from expressinons what's inside your head  
Yeah I need you so  
I need you so  
And all of the world is beneath us today  
But we run for shelter  
We run for shelter  
Inside our own world  
No you'll never know how much  
I care about you all  
And that is the only thing  
I keep inside my own hole  
Yeah that is the truth  
For me  
I go to the places where I been before  
But it doesn't feel like my home anymore  
Yeah I need you so  
I need you so  
And all of the world is beneath us today  
But we run for the shelter  
Yeah we run for the shelter  
Inside our own world  
No you'll never know how much  
I care about you all  
And that is the only thing  
I keep inside my own hole  
Yeah that is the truth  
For me
