

Lay Your Love on Me

Bad Company

I've been up, I've been down, I've been in every situation
I've been pushed, pushed around, and I've been stuck at every station

Looking back, felt so good, searching for fortune and fame
Suddenly comes to you, you're only playing a game

(Don't need no video) no matter what they say
(Don't need no radio) you know, love is here to stay

Lay your love on me, each and every night, baby
Lay your love on me, it'll be alright

Straight up, down the line, I've got the blues in my soul
All I need is my guitar, I got this rock, I wanna roll
You gotta fight for what's right, I never did need the fame
Suddenly comes to you, you're only playing a game

(Don't need no video) no matter what they say
(Don't need no radio) you know, love is here to stay

Lay your love on me, each and every night, baby
Lay your love on me, it'll be alright

(Don't need no video) no matter what they say
(Don't need no radio) love is here to stay
