Bad Company

Some people like to rock some people like to roll  
Some people like to walk some people like to ride  
Some people like to fly some people prefer the train ride  
Is sixteen coaches long

Yeah the train ride is sixteen coaches long

You say you wanna change society but you live on  
You say you want change society  
And you say you want to want to be free

People got to learn to live together

You can be communist a liberal conservative labor or  
Anything you want to be

We got to learn to live together

You can be a black you can be white you can be green yellow blue

Purple or red indian blood  
You can be anything that you wanny be please please  
Lets learn to live together

I ain't never been to the ghetto in my life before  
But I can understand some whites don't have it too cool either  
Don't quote me in saying everybody has a chance to dance  
Has a chance to romance a chance to dance  
And has a chance to do anything they want to do  
There ain't there ain't no god that says you can't enjoy your life  
There ain't no master of ceremony that can fill your life  
With worry and strife  
Choose your own direction
