

# Take the Time

Bad Company

If you want my love, you got it  
A little something from above, tell me if you want it  
But don't you leave me waiting, it don't matter where you are  
There ain't nobody hiding, no matter how near or far you are

I'd pull the world apart, just to get a glimpse  
One lie was all it took, I've missed you ever since, so get ready  
Oooh, we're gonna take this town, oooh, we're gonna tear it down  
And anywhere I go, baby, I see you

I gotta let you know, ooh darlin', just how much I need ya  
This time I'm gonna find you, you gotta know how much I care  
So take a look behind you, you'll see me everywhere, right there  
I'm gonna do about anything to see your face again

And I'm gonna take this place apart, I'll find you in the end,  
so get ready  
Oooh, we're gonna take this town, oooh, we're gonna tear it down,  
I said  
Yeah, we're gonna take this town, baby I know, we're gonna tear  
it down

Oooh, we're gonna take this town, gonna tear it down, yeah, oh  
yeah - watch me  
Oooh, we're gonna take this town, oooh, we're gonna tear it down  
Yeah, we're gonna take this town, baby I know, we're gonna tear  
it down...
