

Best Of What I Got

Bad English

Ow, oh yeah

If you wanna put a message through my heart
Shoot the arrow in the morning, hey
I'm gonna rise and shine and wake you up
And move you without warning

Call my name, I understand
The reason for desire
The band of gold I give to you
Be the ring of fire, hey

Something in your kiss that lasts forever
Burning in the heat for you
Love you 'round the clock
You get the best of what I got, oh yeah

Gonna work all day to buy you pretty things
'Cause you're such a pretty girl
You can work me overtime, knock me out
Got my senses in a whirl

Like a locomotive burning down the track
You're my destination
One on one and kiss for kiss
You're my fascination

Something in your touch that holds the promise, hey
You got me feeling all shook up
I'll love you 'round the clock
You get the best of what I got, oh yeah

I put my key inside your door and it feels so good
When I come home at night
We're rocking the neighborhood
Rocking the neighborhood

Something that you read about in headlines, hey
I feel the heat for you
I wanna rock you 'round the clock, you get the best
You get the best of what I got, oh yeah

You get the best of what I got, ow
I wanna love you 'round the clock
(Best of what I got)
Oh, you get the best of what I got
(Best of what I got)
Ow, that's right, I wanna love you 'round the clock
(Best of what I got)

Ow, ooh, yeah
(Best of what I got)
That's right, you get the best of what I got
(Best of what I got)
