

# Savage Blue

Bad English

When I hold you in my gaze  
When there's nothin' else to say  
I can still find you when you look away  
You can say to me we're through  
You can say that you are free  
But you fool yourself, you belong to me

The more you wanna run  
You can't make it to the door  
Took a chance on love  
Now we both want more

And tonight goes on forever  
I can feel it in my life  
I can see it in your eyes  
Going through this world together  
Finding paradise with you into the savage blue  
The savage blue with you

When the storm has passed us by  
And the crowd has come and gone  
I will be with you 'cause our love goes on  
And we share a quiet place  
That no one else can touch  
Spirits live as one and our souls are free

I will wait for you  
Now my heart's an open door  
Tell me that you'll stay  
Don't wanna lose you anymore

And tonight goes on forever  
I can feel it in my life  
I can see it in your eyes  
Going through this world together  
Finding paradise with you into the savage blue

Baby come with me  
And tonight goes on forever  
I can feel it in my life  
I can see it in your eyes  
Going through this world together  
Finding paradise with you into the savage blue

(Tonight goes on forever)  
When I'm alone with you  
    (Tonight we are together)  
Ohh, yea  
(Tonight goes on forever)  
Into the savage blue  
    (Tonight goes on forever)  
When I'm alone with you  
    (Tonight we are together)  
Makin' love to you  
(Tonight goes on forever)  
Into the savage blue  
Tonight goes on forever

Tonight we are together  
Tonight goes on forever  
Tonight goes on forever  
Tonight we are together  
Tonight goes on forever  
Tonight goes on forever  
Tonight we are together  
Tonight goes on forever
