

## Here Comes The Major

Bad Manners

Let me tell you about them women I've seen, drinking  
whisky and consuming gin  
They don't know right from wrong, they just feel very  
strong  
I said those evil women yeah (x 4)  
now they get themselves a home  
they can even dig up a bone  
they don't know how the major feels  
hes been round very ill  
I said those evil women yeah (x 4)  
here comes the may ja ja ja ja  
pick up your heart, throw it away  
if you feel loved you just won't stay  
shake up your hands and give them away  
those evil women they just won't stay  
I said Let me tell you about them women I've seen  
drinking whisky and consuming gin

they just feel very strong  
I said those evil women yeah x 5
