

# The Hell I Overcame

Bad Omens

If you are cast out  
What's your next move gonna be  
Will you return cold  
Or will you turn up the heat  
(God please forgive those who doubt me)

Did you really think the pain  
Would send me to an early grave  
Did you think I couldn't break these chains  
After all the hell I overcame

God please forgive those who doubt me, forgot about me  
Then throw them down into the flames

Well I am back now and stronger than you think  
Cause when it's dark, the light gets easier to see  
They say I sold out and bid my dignity  
But the truth is the devil sold his soul to me

To me, to me  
The devil sold his soul to me  
To me, to me  
The devil sold his soul to me

God please forgive those who doubt me, forgot about me  
Then throw them down into the flames  
God please forgive those who doubt me, forgot about me  
Make sure they never forget my name

The greatest trick  
That the devil did  
Was convince the world  
He doesn't exist

The greatest trick  
That the devil did  
Was convince the world  
He doesn't exist

(God please forgive those who doubt me, forgot about me)  
After all that hell I overcame

God please forgive those who doubt me, forgot about me  
Then throw them down into the flames  
God please forgive those who doubt me, forgot about me  
Make them remember again

Did you really think the pain  
Would send me to an early grave  
Did you think I couldn't break these chains  
After all the hell I overcame

The greatest trick  
That the devil did  
Was convince the world  
He doesn't exist
