

Modern Man

Bad Religion

I've got nothing to say,
I've got nothing to do,
all om my neruons are
functioning smoothly
yet still i'm a cyborg just like you,
I am one big myoma that thinks,
my planet supports only me,
I've got this one big problem: will I live forever?
I've got just a short time you see,
modern man, evelotinary betrayer,
modern man, ecosystem destroyer,
modern man, destroy yourself in shame,
modern man, pathetic example of earth's organic heritage,
when I look back and think,
when I ponder and ask "why?",
I see my ancestors spend with careless abandon,
assuming eternal supply, modern man...,
just a sample of carbon-based wastage,
just a fucking tragic epic of you and I
