

## Punk Rock Song

Bad Religion

Have you been to the desert?  
have you walked with the dead?  
there's a hundred thousand children being killed for their bread

And the figures don't lie they speak of human disease  
but we do what we want and we think what we please

Have you lived the experience?  
have you witnessed the plague?  
people making babies sometimes just to escape  
in this land of competition the compassion is gone  
yet we ignore the needy and we keep pushing on  
we keep pushing on

This is just a punk rock song  
written for the people who can see something's wrong  
like ants in a colony we do our share  
but there's so many other fuckin' insects out there  
and this is just a punk rock song  
(like workers in a company we do our share  
but there's so many other fuckin' robots out there)

Have you visited the quagmire?  
have you swam in the shit?  
the party conventions and the real politik  
the faces always different, the rhetoric the same  
but we swallow it, and we see nothing change  
nothing has changed...

10 million dollars on a losing campaign  
20 million starving and writhing in pain  
big strong people unwilling to give  
small in vision and perspective  
one in five kids below the poverty line  
one population runnin' out of time
