

Whisper in Time

Bad Religion

All those stories that my dad told me,
they are just a whisper in time
all those things that never came to be,
they are just a whisper in time

A whisper in time, a whisper in time
things that I can't shake from my mind
a whisper in time, a whisper in time
moments that just flicker and die

All those places I wanted to go,
they are just a whisper in time
all those friends who now I do not know,
they are just a whisper in time

A whisper in time, a whisper in time
moments I can't shake from my mind
a whisper in time, a whisper in time
memories that flicker and die

Maps and roads that brought me here today,
they are just a whisper in time
circumstances that were explained away,
they are just a whisper in time

A whisper in time, a whisper in time
things that I can't shake from my mind
a whisper in time, a whisper in time
moments that just flicker and die

Because we are messengers of memory,
just whispers in time.
