

Flying

Badfinger

Feel like I'm flying, I'm dying to say
Want you forever and easy
Be where you are, where I want you to stay

Don't you know what I'm saying?
Believe me

Feel like I'm falling, it's all I can do
Lying and dying is lonely
Deeper and darker, no way to forgive

No way to believe what you told me
No way to believe what you told me
Way to believe

Kings in their castles wound up in the wine
Drinking their confidence daily
Wish I could be into that peace of mine

Wish I could be into crazy
Wish I could be into crazy
Wish I could be
