

When I love you, do you feel it?
I know it makes you happy when I say "alright"
When I love you, do you feel it?

When I hold you, we're an island
You know it makes me happy when you say "alright"
When I hold you, we're an island

I know the road's a hard one
But it's easy when you're not alone
So help me to remember, please
Lady, I believe we'll get home

When I love you, do you feel it?
You know it makes me happy when you say "alright"
When I love you, do you feel it?

I know the road's a hard one
But it's easy when you're not alone
So help me to remember, please
Lady, I believe we'll get home

When I love you, do you feel it?
You know it makes me happy when you say "alright"
When I love you, we're an island

I know the road's a hard road
But it's easy when you're not alone

Help me to remember
Lady, I believe we'll make it home, get home
