Passin' Time

Badfinger

I couldn't believe it, the look in your eyes You said you were leaving and this was the night You told me your reasons, something inside And knew in your heart, girl, love was alive

You were just passing time Taking love in the easy way Wasted mind, giving nothing away

I tried to relate it, to something I said Maybe I should have waited, gone ahead Then it was hard to bear Taking love in the easy way Hard to care, giving nothing away Giving nothing away

You were like a movie star Seen too much, gone too far You were sellin', I was sold So the story goes

You were like a movie star Seen too much, gone too far You were sellin', I was sold As the story goes

Passing time Taking love in the easy way Wasted mind, giving nothing away Giving nothing away Giving nothing away

Oh no, I couldn't believe it Oh no...
