

Fight Until I Die

Badlands

Many times they've said to me I'm wrong, but their
reasons failed
Always told myself 'got to be strong' but reason failed
I was always out to take revenge, someday, somehow
But who was there to blame, well, I don't care, I decided
now to ...

Chorus:

Fight, fight until I die
Oh, I'll fight, I shall give it one more try
I will fight, fight until I die
Oh, I'll fight, I shall fight until I die

I've been betrayed, I've been kept for some mean fool,
but they never broke me
Followed my own path, won't be no fool, never was too
blind to see
Many vultures on the loose, so paranoid
Now what direction shall I choose, lost in a void
