

# Whatever Happened

## Badlands

Well, I keep on searching for better days, while I  
think of those who paved the way  
Long ago out in the past, now these men lay to rest  
They stood for pride and dignity in a more decent  
society  
Tell me why these times are gone - Suddenly it all went  
wrong

Chorus:

Whatever happened with the pride of our land  
Now I see crime rates are rising, tell me where it's  
gonna end  
Hidden in their golden castles far away from the  
streets  
Where your life is a gamble when the gangs of violence  
meet

... The violence meet

In the past when life was hard, they stood together  
from the start  
They respected the shades of green, fought the enemy so  
mean  
What's a life worth nowadays? - So damn easily it's  
taken away  
Now it seems the devil reigns, in a country full of  
shame

Chorus

... The violence meet (2x)

Chorus

... The violence meet (2x)
