Epitaph

Badly Drawn Boy

Please don't leave me wanting more I hope you never die These's no need to say why Just promise that you'll try To give me all you can I'll never ask for more There's a new life thru the door A cradle rocks and falls Cements the melody Our troubles passing

Through decaying, simple times I'll tread on your tail with pride C'est maintenant decide I've nothing better

Please don't leave me wanting more I hope you never die There's no need to say why Just promise that you'll try
