

## Say It Again

Badly Drawn Boy

You squeezed the life right out of me  
Like sapping the juice of a bumblebee  
And then you call me honey  
You say it once and it isn't funny  
When you say it again

And inside theres a style  
Going on  
A head full of dreams  
Only room for one

Now I know you can live without me  
And I have no doubt you will  
Never doubt me  
Like you did before

Were pumping our love  
Into the sea  
Full bodied  
And bursting with energy

Cold blooded your engines are running  
But where your going I'm not coming  
Cause I'm happy here  
Cause I'm happy here

Now we've found a rocksteady beat  
Now all we need is a melody  
And words that mean something or nothing  
So people hear and can sing along until they

Say It Again

If there's trouble ahead  
Don't go bothering me  
With no future I live on memory  
Dried of thought but my nose is runny  
Say you want but I know I'm funny

Say it Again
