

## Not Over

Bag Raiders

Cut like a picture from a paper safely tucked away  
Well that's how my heart is for you  
You keep yours guarded like a palace hiding all it's jewels  
That's just how hard it is for you  
You found somebody yeah ok well I found somebody too  
No need to put on such a show  
If we should fight it out I'm sure we'll take it to the other  
No one should ever have to know

It's not over til it's over  
Oh no but we'll try  
To make it right for just one night  
We tried

It's seemed a good idea the first time that we had each other  
Why don't we just leave it at that  
I know that nothing lasts forever this could change any minute  
And we might never change it back  
We keep on running til tomorrow closer to the future  
Sometimes it seems so far away  
I stared at pictures from a faded to a weaker image  
You're pushing on I'm pushing play

It's not over til it's over  
Oh no but we'll try  
To make it right for just one night  
We tried

It's not over til it's over  
Oh no but we'll try  
To make it right for just one night  
We tried  
It's not over til it's over
