

## Sunshine Blues

Bahamas

Sunset sings the sweetest tune  
Just the song he wrote for his true love in bloom  
I held you dear since the dawn of time  
You know it's true that for you I shine

Going up, you're coming down  
I'm only hoping some day you'll turn around  
Cause I'd be shining and then you'll see  
Who could love you more than me?

How I wish you felt the same  
I'm jealous of the wolves when they howl out your name  
I send my love bouncing from star to star  
So it can find you wherever you are

I'm going up, you're coming down  
I'm only hoping some day you'll turn around  
Cause I'd be shining and then you'll see  
Who could love you more than me?  
Ah who could love you more than me  
No one could love you more than me
