

My Baby

Balkan Beat Box

She's my baby
I got how it all should be
I am home now

When I go it's never far
The Road is long
I am home now

I got my name
And I got my fame
But I say again
I am home now

She's not maybe
She's the one
The one for me
I am home now

When you know
There is no more doubt
If she's around
I am home now

I got my days
And I got my ways
But I say again
I am home now
