Ball Park Music

I got shot straight out of a cannon
Up into the air, all the circus animals
Opened their jaws, waved their shiny things at me as I fly down
to you.

So come on
Get on top
And jump up and down
Forever

Elton John is not the perfect rifle
But you fire him good, you can make a miracle
In her two hands, let the little animal crawl into the room

So come on
Get on top
And jump up and down
Forever

Our bits smash together like fresh fruit in the sun
We're not worried we're just having fun x2
