

Polly Screw My Head Back On

Ball Park Music

Hey
You with the angel wings so fair
Black kilometrico in your hair
You don't hit you use your words
When you wanna hurt somebody else

There's a silver lining around the airplanes
Throws my heart to space and back again
Polly screw my head back on [x2]

Hey
You with the sadness in your eyes
How'd you get so god damn wise
Cause you don't spit you keep your cool
When you wanna please somebody else

There's a silver lining around the airplanes
Throws my heart to space and back again
Polly screw my head back on [x2]

You and me
We've been hanging on by a thread
But now we're holding on to this good, good feeling

There's a silver lining around the airplanes
Throws my heart to space and back again
Polly screw my head back on [x2]
