Heat

Balligomingo

Don't move Scare me on Take too much But don't take too long

Now you're moving in Like acid on my skin I like being burned Your heat is what I yearn

Your salt Corrodes my vault Get too close The spill won't kill the host

Now you're moving in Like acid on my skin I like being burned Your heat is what I yearn

Now you're moving in Like acid on my skin I like being burned Your heat is what I yearn
